

Digi-Function

Digi-Function is the most functional kiosk in our product range. It is a very flexible and user friendly kiosk which is ideal for a self service system. The whole front of the kiosk can open making the kiosk extremely easy to service with access to all technical components like printer, card reader, and coin and note acceptor depending on each individual application. It is also possible to place a monitor on both front and back in different height, making the kiosk children and handicap friendly.
