### Description

Specification

Additional information

The SWEDX 65 Inch 4K Double-Sided High Brightness Screen is an advanced solution that offers sharp visibility and impressive detail in both indoor and outdoor environments. With its double-sided design, it delivers outstanding visual performance from all angles, making it ideal for dynamic and demanding environments.

#### Key Features:

- **Ultra HD Screen:** 65-inch 4K Double-Sided High Brightness Screen with a resolution of 3840 x 2160 pixels. Perfect for presentations in retail stores, corporate environments, educational spaces, or other public areas where sharpness and clarity are crucial.
- **Exceptional Brightness and Contrast:** With a brightness of up to 2500 cd/m<sup>2</sup> on the outward-facing side and 700 cd/m<sup>2</sup> on the other side, the screen ensures excellent visibility under various lighting conditions, even in brightly lit environments. The contrast ratio is 1200:1 static and 50,000:1 dynamic, providing enhanced depth and vividness in images.
- **Smooth Performance:** With a response time of 6 ms and a refresh rate of 60 Hz, the screen delivers smooth motion and a fantastic visual experience for dynamic content. A wide viewing angle of 178/178 degrees ensures that the screen can be seen clearly from all directions.
- **Built-in Media Player:** The screen is equipped with a powerful processor and GPU, supporting advanced graphics standards and offering fast performance for multimedia. Built-in Wi-Fi 6 and Bluetooth 5.0 ensure fast and reliable wireless connections.
- **Robust Connectivity:** The screen supports a range of input options, including HDMI, USB, TF card, and LAN, allowing connection to various media sources. It also supports both manual and automatic image rotation for maximum flexibility.
- **Energy-Efficient Design:** The screen is designed for continuous operation (7×24 hours) with low power consumption and a powerful cooling system that ensures stable operation even under heavy workloads.

The SWEDX 65 Inch 4K Double-Sided High Brightness Screen is a high-performance and visually impressive digital signage solution. With its advanced features and robust design, it is ideal for environments where screen quality and reliability are crucial.
